Storing of Proctoring-Related Data

During proctored exams, we capture audio, video, and images of the remote candidate while they are attempting the exam. In accordance with our privacy policy, this information is accessible only to authorized users for a period of 30 days.

During this time, exam authorities or administrators can access the records to validate the candidate's authenticity. After the 30-day period, this data will be permanently deleted from our system. Any identity proof uploaded by a candidate for the purpose of verification is subject to the same 30-day retention period and is permanently deleted thereafter. See our Data Retention Policy below for the full schedule of retention periods.

Retention and Use of Uploaded Exam Documents

During certain online examination activities, candidates may be required to upload answers, either as typed documents or scanned copies. Please note that such uploaded data will be securely stored in our system for a period of 180 days.

During this period, authorized institute administrators and examiners will have access to review, evaluate, and download these documents for assessment purposes. After the 180-day retention period, all uploaded documents will be permanently deleted from our cloud servers to ensure the security and privacy of candidates' information.

Answer sheet data is maintained on the live system for a period of 180 days from the date on which it is uploaded. In practice, we hand over the answer sheet data to the institution once the evaluation process for that examination has been completed. Once the evaluated answer sheet data has been handed over to the institution, the PDF copies of the answer sheets are removed from our system, which may occur before the 180-day period has elapsed. The data required for historical evaluation reference is thereafter maintained in an archived state for a maximum period of 2 years.

This 180-day period applies specifically to uploaded answer documents. Other categories of data, including assessment records and candidate activity logs, are governed by the retention periods set out in our Data Retention Policy below.

Data Retention Policy

We retain different categories of data for different periods, determined by the purpose the data serves and the period for which it remains necessary for assessment integrity, dispute resolution, and our customers' record-keeping obligations. The retention periods below apply to all data processed through the Eklavvya platform.

Proctoring media and identity documents – 30 days. Audio, images and video captured during proctored examinations, together with any identity proof uploaded by a candidate for verification purposes, are retained for a period of 30 days from the date of the examination. These are accessible during this period only to authorized users of the customer organization. After 30 days, this data is permanently deleted from our systems.

Candidate activity logs – 90 days. Candidate log details, including IP address and assessment attempt logs, are retained for a period of 90 days. These records support investigation of examination irregularities and resolution of candidate disputes. After 90 days, they are permanently deleted.

Completed assessment data – 90 days in the live system. Data relating to completed assessments is maintained in our live database for a maximum period of 90 days. Following this period, assessment data that is no longer active is transferred to archive data storage and is removed from the live system.

Archived assessment data – 3 years, subject to an active subscription. Assessment data transferred to archive storage is retained for a period of 3 years, for so long as the institution's subscription to the Eklavvya platform remains active. Where an institution's subscription expires or is not renewed, archived data belonging to that institution is retained for a further 30 days from the subscription expiry date and is then permanently deleted, irrespective of whether the 3-year period has elapsed. This 30-day period allows the institution to export its records or reinstate its subscription.

Archived data is not accessible through the Eklavvya application interface. An authorized administrator of the institution may request retrieval of archived data through the institution's assigned Eklavvya account manager. We will respond to such requests within 7 working days. Candidates seeking archived records should approach their institution, which holds the relationship with us in respect of that data.

Uploaded exam answer documents – 180 days on the live system. Answer documents uploaded by candidates, whether typed or submitted as scanned copies, are retained separately from the assessment records described above, and are maintained on the live system for a period of 180 days from the date of upload, so that administrators and examiners may access them for evaluation and re-evaluation. We typically hand over the answer sheet data to the institution once

the evaluation process has been completed. Once the evaluated answer sheet data has been handed over, the PDF copies of the answer sheets are removed from our system; where the handover takes place before the 180-day period has elapsed, the PDF copies are removed at that earlier point. In every case, uploaded answer documents are removed from the live system no later than 180 days after upload. This period applies only to answer documents and does not extend to proctoring media or identity documents, which are deleted after 30 days.

Archived answer sheet evaluation data – maximum 2 years. Following the removal of the PDF copies of the answer sheets, the data required for historical evaluation reference, such as marks awarded, evaluation records and examiner annotations, is maintained in an archived state for a maximum period of 2 years, after which it is permanently deleted. This archived evaluation data does not include the PDF copies of the answer sheets themselves, which are removed as described above. Archived evaluation data is not accessible through the Eklavvya application interface; an authorized administrator of the institution may request it through the assigned Eklavvya account manager.

Data category Retention On expiry

Proctoring audio, images and video 30 days Permanently deleted

Identity proof uploaded by candidate 30 days Permanently deleted

Candidate logs (IP address, attempt logs) 90 days Permanently deleted

Completed assessment data (live database) 90 days maximum Moved to archive storage

Archived assessment data 3 years, while the institution’s subscription is active Permanently deleted. If the subscription expires first, deleted 30 days after the expiry date

Uploaded exam answer documents (PDF copies, live system) 180 days from upload, or earlier once evaluated data is handed over to the institution PDF copies removed from the system

Archived answer sheet evaluation data Maximum 2 years Permanently deleted

Where a customer organization’s contract with us specifies a different retention period, that contractual period governs. We may retain data beyond these periods where required to do so by applicable law or to comply with a lawful order of a competent authority.

Information sharing

The company only shares personal information with other companies or individuals outside of Eklavvya in the following limited circumstances:

We have your free consent.

We provide such information to our subsidiaries, affiliated companies, or other trusted businesses or persons for the purpose of processing personal information on our behalf. We require that these parties agree to process such information based on our instructions and in compliance with this Privacy Policy and any other appropriate confidentiality and security measures.

When required by law to comply with any valid legal process such as a search warrant, Compliance under any prevailing law or statute, regulation or court order or any other order from any appropriate authorities or to detect, prevent, or otherwise address fraud, security or technical issues, or to protect against imminent harm to the rights, property or safety of Splashgain, its users or the public as required or permitted by law

We may share with third parties certain pieces of aggregated, non-personal information, such as the number of users appeared for online exam for example, or how many users clicked visited your exam section. Such information does not identify you individually or any of the users registered users of an online exam.

Security measures:

We take appropriate security measures to protect against unauthorized access to or unauthorized alteration, disclosure, or destruction of data. These include internal reviews of our data collection, storage and processing practices and security measures, as well as physical security measures to guard against unauthorized access to systems where we store personal data. However, SplashGain shall not be responsible in any manner whatsoever if the login or user id and/or password is shared and/or leaked by the user.

We restrict access to personal information to Splashgain employees, vendors, contractors, and agents who need to know that information in order to operate, develop, or improve our services. These individuals are bound by confidentiality obligations and may be subject to discipline, including termination and criminal prosecution if they fail to meet these obligations.

Data integrity

Splashgain processes personal information only for the purposes for which it was collected and in accordance with this Privacy Policy or any applicable service-specific privacy notice. We review our data collection, storage, and processing practices to ensure that we only collect, store, and process the personal information needed to provide or improve our services. We take reasonable steps to ensure that the personal information we process is accurate, complete, and current, but we depend on our users to update or correct their personal information whenever necessary.

Accessing and updating personal information

We make good faith efforts to provide you with access to your personal information and either to correct this data if it is inaccurate or to delete such data at your request if it is not otherwise required to be retained by law or for legitimate business purposes. We ask individual users to identify themselves and the information requested to be accessed, corrected or removed before processing such requests, and we may decline to process requests that are unreasonably repetitive or systematic, require disproportionate technical effort, jeopardize the privacy of others, or would be extremely impractical (for instance, requests concerning information residing on backup tapes), or for which access is not otherwise required.
