Overview

At EnlightenAI ('the company', 'we', or 'us'), we respect your privacy and are committed to protecting it through this privacy policy ('Policy' or the 'Privacy Policy'). We provide teachers and school staff with online access to generative artificial intelligence tools for grading, feedback, and data-driven instruction through our website and other services (collectively our "Services").

This policy describes the types of information we may collect from you or that you may provide when you use our product, EnlightenAI ('the product', 'the service', 'the website', 'the app', or 'product'), and our practices for collecting, using, maintaining, protecting, and disclosing that information. This Privacy Policy describes how we collect, use, disclose, share, or otherwise process your personally identifiable information ("PII" or "personal data") when you visit our website or use our other Services. For the purpose of this policy, Personal Information is defined as information that identifies, relates to, or could reasonably be linked with or describes an individual or household, either directly or indirectly. The categories of information we collect and how it is used will depend on your interactions with us. By using or accessing the Platform in any manner, you acknowledge that you accept the practices and policies outlined below, and you hereby consent that we will collect, use, and share your information as described in this Policy.

If you use our student-facing features or products, such as AI-powered feedback tools for students, please see our Student Data Policy to learn more about how we process Student Data. If you are a teacher, school, school district, or other educational institution (“Educational Institution”) that uses our student-facing Services (“Student-Facing Services”) for an educational purpose, then the use of the Student-Facing Services is subject to our Student Data Privacy Agreement. For all Student-Facing Services, the Student Data Privacy Agreement is incorporated herein by reference unless your Educational Institution has entered into a separate agreement with us that includes reasonably equivalent protections with regard to student data.

Our approach to data privacy and security

Our approach to data privacy and security

We've found that there is a specific set of critical questions teachers, educators, parents, and students often want to know about privacy and security. For your convenience, we've summarized our approach below.

We limit the personal information we collect to only what's needed to provide you our Service.

We only use the information we collect to provide you with the Service.

We don't rent, sell, or exchange any data to or with anyone.

We ensure you remain in control of your data.

We follow industry best practices to keep your data safe, and ensure your data is encrypted at rest and in transit.

Data we collect

EnlightenAI collects the following types of personal data when you visit our website or use our Services. We take steps to minimize the collection of personal data to only what is necessary to provide the services.

Information we may collect via technological means

Our servers, which are hosted by a third-party service provider, collect certain technical data about your device and software, including your device's IP address, browser type, browser version, the pages of our Service that you visit, the time and date of your visit, the time spent on those pages, unique device identifiers, and other diagnostic data. We automatically gather this data and store it in log files each time you visit our website or access an account on our network. Unless you have provided PII in connection with your use of the Services (for example, by creating an account), we cannot use such technical data to identify your name or contact information.

Cookies, web beacons, and other tracking technologies

Our Product may use cookies, web beacons, or other tracking technologies to help you personalize your online experience. A "cookie" is a text file that is placed on your hard disk by a web page server. Cookies cannot be used to run programs or deliver viruses to your computer. Cookies are uniquely assigned to you and can only be read by a web server in the domain that issued the cookie to you.

One of the primary purposes of cookies is to provide a convenience feature to save you time. The purpose of a cookie is to tell the Web server that you have returned to a specific page. For example, if you register to use our Product, a cookie helps our Product to recall your specific information on subsequent visits. This simplifies the process of recording your personal information, such as billing addresses, shipping addresses, and so on. When you return to the Product, the information you previously provided can be retrieved, so you can easily use the features that you customized. We do not collect data from users of the product or service for the purpose of tracking across the web.

Necessary cookies

Enable the core operation of our Products and Services, and cannot be switched off in our systems. They include cookies that we use to help control secure areas of our site and to make sure it is accessible to you. You can set your browser to block or alert you about these cookies, but some parts of the site will not work as a result.

Analytics cookies

These cookies allow us to collect information about patterns of behavior among people using the site. Analytics cookies allow us to count site visits and understand traffic sources so we can measure and improve the performance of our site. We never collect any information from analytics cookies that could be used to personally identify you.

Information provided by you when visiting our websites

You may visit our Websites if you wish without creating an account or providing us with any information about yourself.

However, if you decide to use certain Services, you may be asked for information that we need in order to provide you with the Services requested. For example, if you decide to sign up for newsletters from us, attend a demonstration or virtual event, create an individual account to use our Services, or apply as an organization to join one of our programs or other offerings, EnlightenAI may collect some or all of the following PII from you: (1) first and last name, (2) school or organization name, (3) role or job title, (4) email address, (5) phone number, and (6) location information including state/province and country. You may also be provided the opportunity to provide a profile image or other information for your account profile.

If you provide us with feedback or contact us via email, we will collect your name and email address, as well as any other content or information included in or attached to your email, in order to send you a reply. If you order Services from us for a fee, we may also collect information needed for billing and payment purposes that will be processed through a secure third-party payment processor.

We may combine the information we collect directly from you with information we obtain from public sources, partners, and other third parties and use such combined information in accordance with this Privacy Policy.

Users can create or upload content, and we may ask for additional details to verify the identity of users on our platform. Some user information may be shared or revealed in order to participate in social interactions, such as sharing a rubric with a colleague. Social interactions of users are logged. User-created content is reviewed, screened, or monitored by the company.

We may also directly collect analytics data or use third-party analytics tools, such as Google Analytics, to help us measure traffic and usage trends in connection with the Services. We collect and use this analytics information in an aggregate form such that it cannot reasonably be used to identify any particular individual. Aggregated or combined information, representing a collective summary of data, is treated with the same level of confidentiality and protection as personally identifiable information (PII) on our platform.

How we use the data we collect

How we use the data we collect

Enlighten AI limits the collection and processing of data to only what is necessary to deliver the service. The use of personal information is limited to the purposes for which it was collected. This includes the following:

To provide and enhance our services:

Title

Identify you as a user or visitor of our Services, facilitate the creation and security of your account, and manage user registrations.

Provide, administer, maintain, and improve your use of our Services, including enabling access to service functionalities for registered users.

Deliver products, services, or information you request, manage and fulfill service contracts, and respond to your inquiries and feedback.

Offer customer support and respond promptly to your requests.

Personalize and enhance your experience when interacting with our Services and communications.

To communicate and engage with users:

Title

Send you a welcome email and verify ownership of your email address.

Provide updates, announcements, administrative email notifications (such as security alerts or support messages), newsletters, surveys, and other relevant communications.

Inform you about upgrades, special offers, or promotions tailored to your preferences.

Communicate via email, phone calls, SMS, or other electronic methods according to your selected communication preferences.

For research and development:

Title

Compile statistical or anonymized, non-personally identifiable information, turning Personal Information into anonymous or aggregated data to support research purposes, improve our Services, and identify general usage trends.

Share aggregated, anonymized data publicly or with partners for lawful business purposes, provided such data is fully de-identified.

For legal compliance and protection

Title

Comply with applicable laws, regulations, lawful requests, court orders, and legal processes.

Protect the rights, privacy, safety, and property of users, EnlightenAI, and others, including making and defending legal claims.

Enforce compliance with our Terms and Conditions and other contractual requirements.

Detect, prevent, investigate, and respond to misuse or abuse of our Services, including fraudulent, harmful, unauthorized, unethical, or illegal activities, such as cyberattacks and identity theft.

Audit our practices to ensure adherence to legal, regulatory, and contractual obligations.

How we disclose the data we collect

How we disclose the data we collect

To the extent permitted by applicable law, EnlightenAI may disclose your PII in the following circumstances:

Service providers

We may engage our affiliates or third-party organizations, or individuals to support us in connection with the purposes listed above, such as hosting providers, subcontractors, and third-party payment processors.

Law enforcement

It may be necessary, by law, legal process, litigation, and/or requests from public and governmental authorities within or outside your country of residence, for EnlightenAI to disclose your PII. We may also disclose your PII if we determine disclosure is reasonably necessary to enforce our terms and conditions or protect our operations or users.

Business transfer

All of your Personal Data that we collect may be transferred to a third party if we undergo a merger, acquisition, bankruptcy or other transaction in which that third party assumes control of our business (in whole or in part). Should one of these events occur, we will make reasonable efforts to notify you before your information becomes subject to different privacy and security policies and practices. Please note that any Personal Data we collect that is subject to the Family Educational Rights and Privacy Act (“FERPA”), the Children’s Online Privacy Protection Act (“COPPA”) or other laws or regulations relating to the protection of students’ and/or children’ Personal Data will remain subject to such laws or regulations in the event that a third party assumes control of our business. To the extent that we are required to enter into a contract with a School under such laws or regulations, the contract will specify that any successor entity to EnlightenAI will be bound by the terms of such contract.

Prior consent

We may also disclose your PII in other circumstances with your prior informed consent. Service providers acting on our behalf are obliged to adhere to confidentiality requirements no less protective than those set forth herein and will only receive access to your PII as necessary to perform their functions.

Third-party services

Third-party services are used to support the product and process information as part of supporting the product. We screen third-party vendors to ensure they are limited to only processing data in support of delivering Enlighten AI's product. We may share a user's personal information with third-party providers for the purposes of product personalization, app functionality, analytics, and developer notifications as part of delivering the services. When user information is shared with a third-party vendor, it is done in an anonymous or de-identified format and strictly to provide our products and services. Partners and third-parties we may use are restricted from using data for their own purposes, such as creating data profiles for personalized advertisements. Personal information is not shared for third-party marketing, nor is it sold or rented to third parties.

Third-party AI services

We utilize application program interfaces ("API") to power the AI functionality of our Services from multiple AI vendors. A current list of these vendors can be found here. Specifically, parents wishing to retain more information about their child's student records or other personal information processed by EnlightenAI should contact the educational institution that provided EnlightenAI access for their student in order to review, update, access, and otherwise delete any personal information about their child. Note that students may not directly sign up for our Platform, and thus, we never directly collect personal information from students of any age. We prioritize data security and compliance with applicable data protection laws. However, we recommend reviewing the privacy policies of our AI providers to understand their specific data handling practices.

No AI provider we use has the right to train models on any data processed on EnlightenAI's behalf.

Other third-party services

It's important to us that we keep your information safe and secure. In order to help EnlightenAI provide, maintain, protect, and improve our services, EnlightenAI shares information with other partners, vendors, and trusted organizations to process it on our behalf in accordance with our instructions, Privacy Policy, and any other appropriate confidentiality, security, or other requirements we deem appropriate. These companies will only have access to the information they need to provide the EnlightenAI service. You can find information on these partners and subprocessors we work with in our third-party subprocessors list here. This list may change over time, and we'll work hard to keep it up-to-date.

We do not share your personal data with third parties for their own marketing purposes, including direct marketing. We do not permit contextual advertisements, marketing, or other third-party advertising and promotion in our services. This policy applies to all users, regardless of location. Your personal data will only be shared with third-party service providers in order to fulfill the specific services you have requested from EnlightenAI and in compliance with this Privacy Policy.

EnlightenAI's use and transfer to any other app of information received from Google APIs will adhere to Google API Services User Data Policy , including the Limited Use requirements.

Personalized advertising

We do not use or disclose Student Data for targeted advertising purposes. Specifically, personalized advertising (ads based on a user's personal information) is not used or displayed in EnlightenAI's products. We are committed to protecting the privacy and data of our students. We do not share student data with third-party advertisers or use it to create profiles for advertising purposes.

Sweepstakes, contests and other promotions

We do not ask users to participate in any third-party sweepstakes, contests, or other similar promotions.

Automated decision-making

EnlightenAI does not use in connection with the Services automated decision-making, including profiling, in a way that produces legal effects concerning you or which significantly affects you.

Data that is not personal data

We may create aggregated, de-identified, or anonymized data from the Personal Data we collect, including by removing information that makes the data personally identifiable to a particular user. We may use such aggregated, de-identified, or anonymized data and share it with third parties for our lawful business purposes, including to analyze, build, and improve the Platform and promote our business, provided that we will not share such data in a manner that could identify you.

Links to third-party sites

Our provision of a link to any website or location outside of the Services is for your convenience and does not signify our endorsement of such other website or location or its contents. When you click on such a link, you will leave our site and go to another site. During this process, a third party may collect data, including PII, from you. We make reasonable efforts to inform you when you are leaving our site for a third-party site. Please be aware that the terms of this Privacy Policy do not apply to these outside websites or content, or any collection of data after you click on a link to a third party. We encourage you to carefully read the privacy statement of any other website you visit.

How we secure your data

How we secure your data

We seek to protect your Personal Data from unauthorized access, use and disclosure using appropriate physical, technical, organizational and administrative security measures based on the type of Personal Data and how we are processing that data. To further protect student data, EnlightenAI will conduct background checks on all employees who may have access to student data or sensitive information. We limit access to student data to only those employees with a legitimate need for such access to fulfill their job responsibilities. Access privileges are regularly reviewed and promptly revoked when no longer necessary or upon employee departure.You should also help protect your data by appropriately selecting and protecting your passwords and/or other sign-on mechanisms; limiting access to your computer or device and browser; and signing off after you have finished accessing your account. Although we work to protect the security of your account and other data that we hold in our records, please be aware that no method of transmitting data over the internet or storing data is completely secure.

Data retention

We retain Personal Data about you for as long as necessary to provide you with our Platform or to perform our business or commercial purposes for collecting your Personal Data. When establishing a retention period for specific categories of data, we consider who we collected the data from, our need for the Personal Data, why we collected the Personal Data, and the sensitivity of the Personal Data. In some cases, we retain Personal Data for longer, if doing so is necessary to comply with our legal obligations, resolve disputes or collect fees owed, or is otherwise permitted or required by applicable law, rule, or regulation. We may further retain information in an anonymous or aggregated form where that information would not identify you personally.

EnlightenAI retains Student Personal Information ("PII") in accordance with the following practices, which address the purposes for collection, our business need for retaining it, and our timeframes for deletion.

Purposes for Collection

We collect PII — which may include identifiers necessary to roster students into the correct classes, grade level and school year, teacher and course associations, written work submitted for feedback, and related instructional metadata — solely to provide and support the Services. Specifically, we use this information to identify students within the Platform, enable teachers to assign and review work, generate AI-powered feedback and grading, and allow teachers and school leaders to track and analyze student writing growth over time. We do not use PII for any purpose beyond providing the Services to the Educational Institution.

Business Need for Retention

We retain PII for as long as the relevant Educational Institution or teacher maintains an active account, so that educators retain ongoing access to past student work, historical feedback, and longitudinal writing analysis. This continuity is essential to the core educational function of the Platform, which relies on teachers being able to revisit prior submissions, compare student work across time, and build on feedback from earlier assignments.

Timeframe for Deletion

We retain PII until we receive a deletion request from the teacher or the Educational Institution, or until the account is otherwise terminated. Upon receiving a deletion request, we will delete the associated PII as soon as reasonably possible, and in no case later than 30 days from the request. We will confirm deletion by email to the address provided by the requester.

Deletion Requests from Individual Teachers

If a teacher is affiliated with an Educational Institution that is a client partner of EnlightenAI and requests deletion of their individual account, we will defer to the Educational Institution on whether to proceed with deletion, with the Educational Institution's direction taking precedence.

Termination of the Institutional Relationship. If an Educational Institution chooses to discontinue its relationship with EnlightenAI, we will work with the institution during the transition to enable it to download and retain relevant data. Following that transition, we will delete PII associated with the institution from our systems within 30 days and confirm deletion by email. Individual teachers affiliated with the institution will have the option to retain their own personal accounts in EnlightenAI separate from the institutional relationship, and we will likewise confirm any related deletions by email.

Data breaches

If EnlightenAI becomes aware of a system's security breach by an unauthorized party or that any user data was used for an unauthorized purpose, we will comply with relevant state and other data breach laws. We will notify users of any breach resulting in unauthorized release of data electronically, at a minimum, and without unreasonable delay, so that you can take appropriate steps. The notification will include: date of the breach, the types of information that were subject to the breach, a general description of what occurred, and steps EnlightenAI is taking to address the breach.

Your data, your choice

If you reside in California, kindly refer to the additional information for California residents below for further details about your privacy protections under California legislation.

Opt-out

We provide options regarding the gathering, usage, and distribution of your PII. Where allowed by relevant legislation, we might occasionally send you complimentary newsletters and electronic messages that directly advocate the usage of our products or services. Upon receiving newsletters or promotional correspondence from us, you can express a preference to cease receiving additional communications from us, and you will have the chance to «opt out" by adhering to the unsubscribe directions provided in the electronic message you receive or by reaching out to us directly. Regardless of your indicated electronic message preferences for other matters, we might send you operational notices such as revisions to our Terms of Use or Privacy Policy and similar account alerts.

Your rights to access, correct, or delete your personal information

Placeholder text

You can modify any of your PII in your account on the Services, including contact details and/or notification preferences, by updating your account profile. You might possess the right to make additional requests under relevant legislation related to your personal details in our possession, and depending on applicable legislation, you might have the right to challenge our determination regarding your request. Reach out to us at privacy@enlightenme.ai if you have inquiries or a request concerning your personal details. Your entitlements may include a right to access your personal details that we handle and transfer it, amend it, remove it (erasure), restrict it, or oppose its sale or use for direct marketing objectives, and not to face retaliation for exercising your entitlements. We will strive to fulfill your requests.

EnlightenAI will employ commercially reasonable measures to grant you access to your Personal Information (to the extent we possess any) if you submit your access request via an electronic message to info@enlightenme.ai. Students wishing to access and modify their Personal Information must have the Educator submit a request on their behalf.

Once the Educator registers a Student Account, the Educator may access, modify, or remove the Students' information and any user-created content by choosing the sections of the site and information, including student work submissions and feedback.

You may ask that we remove your account information by sending an electronic message to privacy@enlightenme.ai, but please be aware that we may be obligated (by law or otherwise) to retain this information and not remove it (or to retain this information for a specific duration, in which case we will fulfill your removal request only after we have satisfied such obligations). EnlightenAI will address such requests within thirty (30) days or earlier if mandated by applicable legislation. When we remove account information, it will be deleted from the active database, but might remain in our archives for a limited duration. We will otherwise maintain your information for as long as your account is active, as required to provide you with the Services you have requested, or as necessary to fulfill our legal obligations, resolve disputes, and enforce our agreements.

Information processed under the direction of customers

If an educational institution or other entity has enrolled for the Services (a "Customer") and your PII has been gathered by EnlightenAI as a consequence of such entity's utilization of the Services, EnlightenAI gathers and processes any such PII of yours under the guidance of the relevant Customer. If these circumstances pertain to you and you want to access, edit, delete, or exercise any rights you may have under applicable data protection regulations regarding any PII that we have collected about you, please direct your inquiry to the relevant Customer, as this may accelerate the completion of your request. We nonetheless offer reasonable support to our Customers to implement data subject rights as appropriate and mandated by applicable regulations.

Student data policy

When an Educational Institution customer makes our Student Services available to students for an educational purpose, EnlightenAI may process personal information that is directly related to an identifiable student that is: (i) provided to EnlightenAI by an Educational Institution, or (ii) collected or generated by EnlightenAI during the provision of Services to the Educational Institution ("Student Data"). Student Data may include information defined as "educational records" by the Family Educational Rights and Privacy Act ("FERPA") or "covered information" under California's Student Online Personal Data Protection Act ("SOPIPA"), or other information protected by similar student data privacy laws. To view a schedule of student data we collect, please refer to Exhibit_D in our Data Processing Agreement.

We consider Student Data to be confidential and do not use Student Data for any purpose other than to provide our Services on the Educational Institution's behalf, in accordance with contractual agreements with the Educational Institution.

We collect, maintain, use, and share Student Data only for an authorized educational purpose and as described in our Agreement with the Educational Institution, or as directed by the Educational Institution or by the Student's parent or legal guardian (each, a "Parent").

We do not use or disclose Student Data for targeted advertising purposes. Specifically, personalized advertising (ads based on a user's personal information) is not used or displayed in EnlightenAI's products. We are committed to protecting the privacy and data of our students. We do not share student data with third-party advertisers or use it to create profiles for advertising purposes.

We do not build a personal profile of a Student other than in furtherance of an educational purpose.

We maintain a comprehensive data security program designed to protect the types of Student Data maintained by the Service.

We will clearly and transparently disclose our data policies and practices to our users.

We will never sell Student Data unless the sale is part of a corporate transaction, such as a merger, acquisition, bankruptcy, or other sale of assets, in which case we will require the new owner to continue to honor the terms provided in this Student Data Policy or we will provide the Educational Institution with notice and an opportunity to opt-out of the transfer of Student Data by deleting the Student Data before the transfer occurs.

We disclose Student Data solely as needed to provide our Services on behalf of specific Educational Institutions in accordance with our contractual agreements with those Educational Institutions or with the consent of the Educational Institution or Parent.

We may also generate, use, and disclose de-identified information for adaptive learning purposes or customized student learning purposes, to recommend content or services relating to Educational Institution purposes or other educational or employment purposes, to develop, research, and improve our Services, or to demonstrate the effectiveness of our Services.

We will not knowingly retain Student Data beyond the time period required to support an educational purpose, unless authorized by the Educational Institution.

If you are a Parent or Student and wish to access Student Data, delete Student Data, or close your account, please direct your request to your Educational Institution.

If you are a Parent or Student and have questions about specific practices relating to Student Data provided to EnlightenAI by an Educational Institution, please direct your questions to your Educational Institution.

Compliance with FERPA and COPPA

In the United States, the Children's Online Privacy Protection Act (COPPA) requires online service providers like EnlightenAI to obtain verifiable parental consent and provide parents with a direct notice before collecting, using, or disclosing personal information from children under the age of 13, except in limited scenarios. Such a limited scenario takes place when using EnlightenAI in an educational context (i.e., using EnlightenAI for the use and benefit of the school and for no other commercial purpose). In the educational context, the Federal Trade Commission (FTC) allows educators, schools, and school districts (collectively "School/s" or "Educational Institution/s") to act as the parents' agent and consent to the collection of students' personal information on the parents' behalf. In order for EnlightenAI to rely on consent obtained from Educational Institutions instead of parents, EnlightenAI must provide Educational Institutions with the same type of direct notice regarding its practices (as to the collection, use, or disclosure of personal information from children) as it would otherwise provide to the parent. This process ensures that educators are fully informed under COPPA requirements when they use EnlightenAI for educational purposes.

In accordance with COPPA guidelines, EnlightenAI only collects personal information of children from an Organization (after obtaining consent from a School Official) reasonably necessary to provide the Platform so that children may receive our educational services, and will not collect personal information of children under 13 for any extraneous purposes. Parents have the right to withdraw their consent at any time, halting any further collection of their child's information.

EnlightenAI may receive information uploaded to the service by teachers that is considered an education record and subject to the Family Education Rights and Privacy Act ("FERPA"). EnlightenAI is a "School official" under FERPA and processes student information as such. As required by FERPA, we ensure that student education records are kept confidential and are only disclosed under lawful conditions.

Student records obtained by EnlightenAI from an educational institution continue to be the property of and under the control of the educational institution. The educational institution retains full ownership rights to the personal information and education records it provides to EnlightenAI.

State law privacy rights

If you are a California resident, California law requires us to provide you with some additional information regarding how we collect, use, and share your "personal information" (as defined in the California Consumer Privacy Act ("CCPA")).

How we source, use, and disclose information for business purposes

The chart below details the categories of personal information we collect, the sources of such personal information, and how we use and share such information for business purposes.

Categories of personal information collected

Sources of personal information

Purposes for use of personal information (see "How we use the data we collect" for more information)

Disclosures of personal information for business purposes (see "information sharing and disclosure" for more information)

Contact information

e.g., name, email address, organization, role, phone number, mailing address including state/province, country

You

Provide the services requested and customer service Communicate with you Analyze use of and personalize the services Improve the services Provide security, prevent fraud, and for de-bugging Comply with legal requirements

Service providers Law enforcement in the event of a lawful request With entities in the event of a business transaction With your consent

Financial and transactional information

e.g., payment account information and donation history

You & payment processors

Process service fees Communicate with you Comply with legal requirements

Payment processors Law enforcement in the event of a lawful request With entities in the event of a business transaction With your consent

Login information

e.g., your account name

You

Provide the services and customer service Provide security, prevent fraud, and for de-bugging Comply with legal requirements

Service providers Law enforcement in the event of a lawful request With entities in the event of a business transaction With your consent

Device and online identifier information

e.g., IP address, browser type, operating system, general location inferred from IP address, and similar information

You, through your device

Provide the services and customer service Analyze use of and personalize the services Improve the services Provide security, prevent fraud, and for de-bugging Comply with legal requirements

Service providers Law enforcement in the event of a lawful request With entities in the event of a business transaction With your consent

Service usage information

e.g., the dates and times you use the services, how you use the services, and the content you interact with on the services

You, through your device

Provide the services and customer service Analyze use of and personalize the services Improve the services Provide security, prevent fraud, and for de-bugging Comply with legal requirements

Service providers Law enforcement in the event of a lawful request With entities in the event of a business transaction With your consent

Please note that the above chart does not describe the Student Data that we process. For more information about our privacy practices with regard to Student Data, please refer to our Student Data Policy. In short, Student Data is processed solely on behalf of specific Educational Institutions under a student data privacy agreement. If you have questions about an Educational Institution's privacy practices, you should contact the Educational Institution directly.

Your California privacy rights

If you are a California resident, the CCPA allows you to make certain requests about your personal information. Specifically, the CCPA allows you to request us to:

Inform you about the categories of personal information we collect or disclose about you; the categories of sources of such information; the business or commercial purpose for collecting your personal information; and the categories of third parties with whom we share/disclose personal information.

Provide access to and/or a copy of certain personal information we hold about you.

Delete certain personal information we have about you.

Provide you with information about the financial incentives that we offer to you, if any.

The CCPA further provides you with the right not to be discriminated against (as provided for in applicable law) for exercising your rights. Please note that certain information may be exempt from such requests under California law. For example, we need certain information in order to provide our services to you. We will also take reasonable steps to verify your identity before responding to a request. In doing so, we may ask you for verification information so that we can match at least two verification points with information we maintain in our files about you. If we are unable to verify you through this method, we shall have the right, but not the obligation, to request additional information from you. Please also note that if your personal information has been collected by EnlightenAI as a result of a Customer's (as defined above) use of our services, EnlightenAI collects and maintains your personal information under the direction of the relevant Customer. If these circumstances apply to you and you wish to access or delete any personal information that we have collected about you, please direct your query to the relevant Customer, as this may expedite the completion of your request. We nevertheless provide reasonable assistance to our Customers to give effect to consumer choices as appropriate and required by applicable laws.

If you would like further information regarding your legal rights under California law or would like to exercise any of them, or if you are an authorized agent making a request on a California consumer's behalf, please contact us at privacy@enlightenme.ai

The CCPA provides certain rights if a company "sells" personal information, as such term is defined under the CCPA. We do not engage in activities that would be considered "sales" of personal information under the CCPA.

Shine the light disclosure

The California "Shine the Light" law gives residents of California the right, under certain circumstances, to request information from us regarding the manner in which we share certain categories of personal information (as defined in the Shine the Light law) with third parties for their direct marketing purposes. We do not share your personal information with third parties for their own direct marketing purposes.

Do Not Track Signals

EnlightenAI does not track users over time and across third-party websites and therefore does not respond to Do Not Track ("DNT") signals from web browsers. Further, because there currently is no industry standard concerning what, if anything, a service should do when it receives such signals, we currently do not take action in response to these signals.

Changes to this Privacy Policy

We may revise our Privacy Policy from time to time. You can see when the last update was by looking at the "Last Updated" date at the top of this page. We won't reduce your rights under this Privacy Policy without your explicit consent. If we make any significant changes, we'll provide prominent notice by posting a notice on the EnlightenAI Service and notifying you by email (using the email address you provided) within 30 days before the change takes effect, so you can review and make sure you know about them.

We encourage you to review this Privacy Policy from time to time, to stay informed about our collection, use, and disclosure of personal information through the Service and EnlightenAI. If you don't agree with any changes to the Privacy Policy, you may terminate your account. By continuing to use the Service or the EnlightenAI after the revised Privacy Policy has become effective, you acknowledge that you accept and agree to the current version of the Privacy Policy.

If we make any material changes to this Privacy Policy — including changes involving new or additional collection of Student Data, or changes that may lessen the protections previously afforded to Student Data — we will provide advance notice directly to Educational Institutions that use our Services with students. This notice will be delivered by email to your email address that you provided to us at least 30 days before the change takes effect, separate from and in addition to any notice provided through click-through or similar in-product agreements. Educational Institutions will have the opportunity to review the changes before they become effective and, where applicable, to discontinue use of the Services if they do not agree to the updated terms.

Change of Control

Over time, EnlightenAI may grow and reorganize. We may share your information, including personal information with affiliates such as a parent company, subsidiaries, joint venture partners or other companies that we control or that are under common control with us, in which case we will require those companies to agree to use your personal information in a way that is consistent with this Privacy Policy.

In the event of a change to our organizations such that all or a portion of EnlightenAI or its assets are acquired by or merged with a third-party, or in any other situation where personal information that we have collected from users would be one of the assets transferred to or acquired by that third-party, this Privacy Policy will continue to apply to your information, and any acquirer would only be able to handle your personal information as per this policy (unless you give consent to a new policy). We will provide you with notice of an acquisition within thirty (30) days following the completion of such a transaction, by posting on our homepage and by email to your email address that you provided to us. If you do not consent to the use of your personal information by such a successor company, subject to applicable law, you may request its deletion from the company.

In the unlikely event that EnlightenAI goes out of business or files for bankruptcy, we will protect your personal information and will not sell it to any third-party.

Data Processing Agreement

Last updated: 05/08/2025

Data Processing Agreement

Last updated: 05/08/2025

Overview

Overview

This Data Processing Agreement (this "DPA" or "Addendum") supplements the Terms and Conditions (the "Agreement") between Teaching Lab Ventures, Inc. (“EnlightenAI," "us," "we") and the entity that is a party to the Agreement ("Organization" or "you"). We may update this Addendum from time to time, and we will provide reasonable notice of any such updates. Any terms not defined in this Addendum shall have the meaning set forth in the Agreement.

1. Definitions

1. Definitions

"Affiliate"

1.

means (i) an entity of which a party directly or indirectly owns fifty percent (50%) or more of the stock or other equity interest, (ii) an entity that owns at least fifty percent (50%) or more of the stock or other equity interest of a party, or (iii) an entity which is under common control with a party by having at least fifty percent (50%) or more of the stock or other equity interest of such entity and a party owned by the same person, but such entity shall only be deemed to be an Affiliate so long as such ownership exists.

"Authorized Sub-Processor"

2.

means a third-party who has a need to know or otherwise access Organization's Personal Data to enable EnlightenAI to perform its obligations under this DPA or the Agreement, and who is either (1) listed in Exhibit B or (2) subsequently authorized under Section 4.2 of this DPA.

"EnlightenAI Account Data"

3.

means personal data that relates to EnlightenAI's relationship with Organization, including the names or contact information of individuals authorized by Organization to access Organization's account, including all Business Contact Data. EnlightenAI Account Data also includes any data EnlightenAI may need to collect for the purpose of managing its relationship with Organization, identity verification, or as otherwise required by applicable laws and regulations.

"EnlightenAI Usage Data"

4.

means Service usage data collected and processed by EnlightenAI in connection with the provision of the Services, including without limitation data used to identify the source and destination of a communication, activity logs, and data used to optimize and maintain performance of the Services, and to investigate and prevent system abuse.

"Data Exporter"

5.

means Organization.

"Data Importer"

6.

means EnlightenAI.

"Data Privacy Laws"

7.

means all applicable laws, regulations, and other legal or self-regulatory requirements in any jurisdiction relating to privacy, data protection, data security, breach notification, or the Processing of Personal Information, including without limitation, to the extent applicable, the California Consumer Privacy Act, Cal. Civ. Code § 1798.100 et seq. ("CCPA"), the Family Educational Rights and Privacy Act, 20 U.S.C. § 1232g ("FERPA"), the General Data Protection Regulation, Regulation (EU) 2016/679 ("GDPR"), the United Kingdom Data Protection Act (2018) ("UK Data Protection Act"), the Virginia Consumer Data Protection Act ("VCDPA"), and the Swiss Federal Act on Data Protection ("Swiss FADP"). For the avoidance of doubt, if EnlightenAI's Processing activities involving Personal Information are not within the scope of a given Data Privacy Law, such law is not applicable for purposes of this Agreement.

"Consumer"

8.

means an identified or identifiable natural person about whom Personal Information relates.

"Personal Information"

9.

includes "personal data," "personal information," "personally identifiable information," and similar terms, and such terms shall have the same meaning as defined by applicable Data Privacy Laws.

"Process" and "Processing"

10.

mean any operation or set of operations performed on Personal Information or on sets of Personal Information, whether or not by automated means, such as collection, recording, organization, creating, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure, or destruction.

"Sub-Processor"

11.

means an entity appointed by EnlightenAI to Process data on its behalf.

"Security Breach"

12.

means any accidental or unlawful acquisition, destruction, loss, alteration, unauthorized disclosure of, or access to, Personal Information.

"Services"

13.

shall have the meaning of providing the EnlightenAI Platform as set forth in the Agreement.

2. Relationship of the parties; Processing of data

2. Relationship of the parties; Processing of data

1.

The parties acknowledge and agree that with regard to the processing of Personal Data, Organization may act either as a controller or processor and, except as expressly set forth in this DPA or the Agreement, EnlightenAI is a processor. Organization shall, in its use of the Services, at all times process Personal Data, and provide instructions for the processing of Personal Data, in compliance with Data Privacy Laws. The Organization shall ensure that the processing of Personal Data in accordance with Organization's instructions will not cause EnlightenAI to be in breach of the Data Privacy Laws. Organization is solely responsible for the accuracy, quality, and legality of (i) the Personal Data provided to EnlightenAI by or on behalf of Organization, (ii) the means by which Organization acquired any such Personal Data, and (iii) the instructions it provides to EnlightenAI regarding the processing of such Personal Data. Organization shall not provide or make available to EnlightenAI any Personal Data in violation of the Agreement or otherwise inappropriate for the nature of the Services, and shall indemnify EnlightenAI from all claims and losses in connection therewith.

2.

EnlightenAI shall not process Personal Data (i) for purposes other than those set forth in the Agreement and/or Exhibit A, (ii) in a manner inconsistent with the terms and conditions set forth in this DPA or any other documented instructions provided by Organization, including with regard to transfers of personal data to a third country or an international organization, unless required to do so by Supervisory Authority to which EnlightenAI is subject; in such a case, EnlightenAI shall inform the Organization of that legal requirement before processing, unless that law prohibits such information on important grounds of public interest, or (iii) in violation of Data Privacy Laws. Organization hereby instructs EnlightenAI to process Personal Data in accordance with the foregoing and as part of any processing initiated by Organization in its use of the Services.

The subject matter, nature, purpose, and duration of this processing, as well as the types of Personal Data collected and categories of Data Subjects, are described in Exhibit A to this DPA.

Following completion of the Services, at Organization's choice, EnlightenAI shall return or delete Organization's Personal Data, unless further storage of such Personal Data is required or authorized by applicable law. If return or destruction is impracticable or prohibited by law, rule or regulation, EnlightenAI shall take measures to block such Personal Data from any further processing (except to the extent necessary for its continued hosting or processing required by law, rule or regulation) and shall continue to appropriately protect the Personal Data remaining in its possession, custody, or control.

CCPA, VCDPA, and FERPA Language. The Parties acknowledge and agree that the processing of personal information or personal data that is subject to the CCPA, VCDPA, or FERPA shall be carried out in accordance with the terms set forth in Exhibit C.

3. Confidentiality

3. Confidentiality

This Data Processing Agreement (this "DPA" or "Agreement") supplements the Terms and Conditions (the "Agreement") between EnlightenAI, Inc. ("EnlightenAI," "us," "we") and the entity that is a party to the Agreement ("Organization" or "you"). We may update this Agreement from time to time, and we will provide reasonable notice of any such updates. Any terms not defined in this Agreement shall have the meaning set forth in the Agreement.

4. Authorized sub-processors

4. Authorized sub-processors

1.

Organization acknowledges and agrees that EnlightenAI may (1) engage its Affiliates and the Authorized Sub-Processors to this DPA to access and process Personal Data in connection with the Services and (2) from time to time engage additional third parties for the purpose of providing the Services, including without limitation the processing of Personal Data. By way of this DPA, Organization provides general written authorization to EnlightenAI to engage sub-processors as necessary to perform the Services.

2.

A list of EnlightenAI's current Authorized Sub-Processors (the "List") is available on EnlightenAI’s website. Such List may be updated by EnlightenAI from time to time. At least thirty (30) days before enabling any third party other than existing Authorized Sub-Processors to access or participate in the processing of Personal Data, EnlightenAI will add such third party to the List and notify Organization. Organization may object to such an engagement by informing EnlightenAI within ten (10) days of receipt of the aforementioned notice by Organization, provided such objection is in writing and based on reasonable grounds relating to data protection. Organization acknowledges that certain sub-processors are essential to providing the Services and that objecting to the use of a sub-processor may prevent EnlightenAI from offering the Services to Organization.

3.

If Organization reasonably objects to an engagement in accordance with Section 4.2, and EnlightenAI cannot provide a commercially reasonable alternative within a reasonable period of time, Organization may discontinue the use of the affected Service by providing written notice to EnlightenAI. Discontinuation shall not relieve Organization of any fees owed to EnlightenAI under the Agreement.

4.

If Organization does not object to the engagement of a third party in accordance with Section 4.2 within ten (10) days of notice by EnlightenAI, that third party will be deemed an Authorized Sub-Processor for the purposes of this DPA.

5.

EnlightenAI will enter into a written agreement with the Authorized Sub-Processor imposing on the Authorized Sub-Processor data protection obligations comparable to those imposed on EnlightenAI under this DPA with respect to the protection of Personal Data. In case an Authorized Sub-Processor fails to fulfill its data protection obligations under such written agreement with EnlightenAI, EnlightenAI will remain liable to Organization for the performance of the Authorized Sub-Processor's obligations under such agreement.

5. Security of personal data

5. Security of personal data

Taking into account the state of the art, the costs of implementation and the nature, scope, context and purposes of processing as well as the risk of varying likelihood and severity for the rights and freedoms of natural persons, EnlightenAI shall maintain appropriate technical and organizational measures to ensure a level of security appropriate to the risk of processing Personal Data. Exhibit B sets forth additional information about EnlightenAI's technical and organizational security measures.

6. Rights of data subjects

6. Rights of data subjects

1.

EnlightenAI shall, to the extent permitted by law, notify Organization upon receipt of a request by a Data Subject to exercise the Data Subject's right of: access, rectification, erasure, data portability, restriction or cessation of processing, withdrawal of consent to processing, and/or objection to being subject to processing that constitutes automated decision-making (such requests individually and collectively "Data Subject Request(s)"). If EnlightenAI receives a Data Subject Request in relation to Organization's data, EnlightenAI will advise the Data Subject to submit their request to Organization and Organization will be responsible for responding to such request, including, where necessary, by using the functionality of the Services. Organization is solely responsible for ensuring that Data Subject Requests for erasure, restriction or cessation of processing, or withdrawal of consent to processing of any Personal Data are communicated to EnlightenAI, and, if applicable, for ensuring that a record of consent to processing is maintained with respect to each Data Subject.

2.

EnlightenAI shall, at the request of the Organization, and taking into account the nature of the processing applicable to any Data Subject Request, apply appropriate technical and organizational measures to assist Organization in complying with Organization's obligation to respond to such Data Subject Request and/or in demonstrating such compliance, where possible, provided that (i) Organization is itself unable to respond without EnlightenAI's assistance and (ii) EnlightenAI is able to do so in accordance with all applicable laws, rules, and regulations. Organization shall be responsible to the extent legally permitted for any costs and expenses arising from any such assistance by EnlightenAI.

7. EnlightenAI's role as a controller

7. EnlightenAI's role as a controller

The parties acknowledge and agree that with respect to EnlightenAI Account Data and EnlightenAI Usage Data, EnlightenAI is an independent controller, not a joint controller with Organization. EnlightenAI will process EnlightenAI Account Data and Usage Data as a controller (i) to manage the relationship with Organization; (ii) to carry out EnlightenAI's core business operations, such as accounting, audits, tax preparation and filing and compliance purposes; (iii) to monitor, investigate, prevent and detect fraud, security incidents and other misuse of the Services, and to prevent harm to Organization; (iv) for identity verification purposes; (v) to comply with legal or regulatory obligations applicable to the processing and retention of Personal Data to which EnlightenAI is subject; and (vi) as otherwise permitted under Data Privacy Laws and in accordance with this DPA and the Agreement. EnlightenAI may also process EnlightenAI Usage Data as a controller to provide, optimize, and maintain the Services, to the extent permitted by Data Privacy Laws. Any processing by EnlightenAI as a controller shall be in accordance with EnlightenAI's privacy policy.

8. EnlightenAI's role as a controller

8. EnlightenAI's role as a controller

EnlightenAI will notify Organization without undue delay of any Security Breach and will assist Organization in Organization's compliance with its Security Breach-related obligations, including without limitation, by:

Taking steps to mitigate the effects of the Security Breach and reduce the risk to Consumers whose Personal Information was involved; and

Providing Organization with the following information, to the extent known: i. The nature of the Security Breach, including, where possible, how the Security Breach occurred, the categories and approximate number of Consumers concerned, and the categories and approximate number of Personal Information records concerned; ii. The likely consequences of the Security Breach; and iii. Measures taken or proposed to be taken by EnlightenAI to address the Security Breach, including, where appropriate, measures to mitigate its possible adverse effects.

9. Audits

9. Audits

EnlightenAI will make available to Organization all records necessary to demonstrate compliance with this Agreement and will allow for and contribute to audits conducted by Organization or another auditor mandated by Organization, provided that, such audit shall occur no more than once every twelve (12) calendar months, upon reasonable prior written notice, and to the extent EnlightenAI's personnel are required to cooperate thereupon, during EnlightenAI's normal business hours.

10. Return or destruction of personal information

10. Return or destruction of personal information

Except to the extent required otherwise by Data Privacy Laws, EnlightenAI will, at the choice of Organization, return to Organization and/or securely destroy all Personal Information upon (a) written request of Organization or (b) termination of the Agreement. Except to the extent prohibited by Data Privacy Laws, EnlightenAI will inform Organization if it is not able to return or delete the Personal Information.

11. Term; Survival

11. Term; Survival

The term of this Agreement shall commence as of the Effective Date and will continue until terminated by the parties upon a 30-day prior written notice or until the underlying Agreement between the parties has been terminated. The provisions of this Agreement shall survive the termination or expiration of this Agreement for so long as EnlightenAI or its subcontractors Process the Personal Information.

12. Conflict

12. Conflict

In the event of any conflict or inconsistency among the following documents, the order of precedence will be: (1) the terms of this DPA; (2) the Agreement; and (3) EnlightenAI's privacy policy. Any claims brought in connection with this DPA will be subject to the terms and conditions, including, but not limited to, the exclusions and limitations set forth in the Agreement.

Exhibit A: Details of data processing

Exhibit A: Details of data processing

Nature and purpose of processing

EnlightenAI will process Organization's Personal Data as necessary to provide the Services under the Agreement, for the purposes specified in the Agreement and this DPA, and in accordance with Organization's instructions as set forth in this DPA. The nature of processing includes, without limitation:

Receiving data, including collection, accessing, retrieval, recording, and data entry to confirm Services are being provided to the correct individuals.

Holding data, including storage, organization and structuring.

Using data, including analysis, consultation, and testing.

Updating data, including correcting, adaptation, alteration, alignment and combination.

Protecting data, including restricting, encrypting, and security testing.

Sharing data, including disclosure, dissemination, allowing access or otherwise making available.

Returning data to the data exporter or data subject.

Erasing data, including destruction and deletion.

Duration of processing

EnlightenAI will process Organization's Personal Data as long as required (i) to provide the Platform to Organization under the Agreement; (ii) for EnlightenAI's legitimate business needs; or (iii) by applicable law or regulation. EnlightenAI Account Data and EnlightenAI Usage Data will be processed and stored as set forth in EnlightenAI's privacy policy.

Categories of data subjects

Organization business contacts, Organization's end users, including students and teachers.

Categories of personal data

EnlightenAI processes Personal Data contained in EnlightenAI Account Data, EnlightenAI Usage Data, and any Personal Data provided by Organization (including any Personal Data Organization collects from its end users and processes through its use of the Services). Categories of Personal Data include:

Account information (such as name, email address, and credentials).

Academic information (such as grades, feedback, and learning data).

Log data, images, audio, text and other data that is provided by Organization.

Sensitive data or special categories of data

None anticipated. EnlightenAI is not responsible for processing any sensitive data unless and until mutually agreed by the parties.

Exhibit B: Technical and organizational security measures

Exhibit B: Technical and organizational security measures

EnlightenAI will implement and maintain the following administrative, technical, physical, and organizational security measures for the Processing of Personal Information:

Information security policies and standards

1.

EnlightenAI will maintain written information security policies, standards, and procedures addressing administrative, technical, and physical security controls and procedures. These policies, standards, and procedures shall be kept up to date, and revised whenever relevant changes are made to the information systems that use or store Personal Information.

Physical security

2.

EnlightenAI will maintain commercially reasonable security systems at all EnlightenAI sites at which an information system that uses or stores Personal Information is located that include reasonably restricting access to such Processing Locations, and implementing measures to detect, prevent, and respond to intrusions.

Organizational security

3.

EnlightenAI will maintain information security policies and procedures addressing data disposal, data minimization, data classification, and incident response protocols.

Network security

4.

EnlightenAI maintains commercially reasonable information security policies and procedures addressing network security, including:

All data is encrypted at rest and in transit.

Protection against malicious code.

Vulnerability management.

Access control

5.

EnlightenAI agrees that: (1) only authorized EnlightenAI staff can grant, modify or revoke access to an information system that Processes Personal Information; and (2) it will implement commercially reasonable physical and technical safeguards to create and protect passwords.

Virus and malware controls

6.

EnlightenAI protects Personal Information from malicious code and will install and maintain anti-virus and malware protection software on any system that handles Personal Information.

Personnel

7.

EnlightenAI has implemented and maintains a security awareness program to train employees about their security obligations. Data Personnel follow established security policies and procedures. Disciplinary process is applied if Data Personnel fail to adhere to relevant policies and procedures.

Subcontractor security

8.

EnlightenAI shall only select and contract with subcontractors that are capable of maintaining appropriate security safeguards that are no less onerous than those contained in this Agreement.

Business continuity

9.

EnlightenAI implements disaster recovery and business resumption plans that are kept up to date and revised on a regular basis. EnlightenAI also adjusts its Information Security Program in light of new laws and circumstances, including as EnlightenAI's business and Processing change.

System resilience

10.

EnlightenAI's systems are designed with different components which are independently scalable and redundant. For web servers, additional servers can be started elastically. For the database, hot standby (replicas) exist in different active zones in the primary region and secondary region, which can be promoted to masters.

Data backup and restoration

11.

EnlightenAI backs up data daily for the last 7 days. Time to recovery once issues are detected is approximately 5 minutes for same-region database master restart/failover.

Security testing

12.

EnlightenAI undergoes regular security assessments and testing, including a combination of manual and technical assessments to determine fitness of security systems.

Exhibit C: U.S. Privacy laws exhibit

Exhibit C: U.S. Privacy laws exhibit

This U.S. Privacy Laws Exhibit supplements the DPA and includes additional information required by the CCPA, VCDPA, and FERPA. Any terms not defined in this Exhibit shall have the meanings set forth in the DPA and/or the Agreement.

A.

CALIFORNIA

1.

Definitions

1.

For purposes of this Section A, the terms "Business," "Business Purpose," "Commercial Purpose," "Consumer," "Personal Information," "Processing," "Sell," "Service Provider," "Share," and "Verifiable Consumer Request" shall have the meanings set forth in the CCPA.

2.

All references to "Personal Data," "Controller," "Processor," and "Data Subject" in the DPA shall be deemed to be references to "Personal Information," "Business," "Service Provider," and "Consumer," respectively, as defined in the CCPA.

2.

Obligations

1.

Except with respect to EnlightenAI Account Data and EnlightenAI Usage Data (as defined in the DPA), the parties acknowledge and agree that EnlightenAI is a Service Provider for the purposes of the CCPA (to the extent it applies) and EnlightenAI is receiving Personal Information from Organization in order to provide the Services pursuant to the Agreement, which constitutes a Business Purpose.

2.

Organization shall disclose Personal Information to EnlightenAI only for the limited and specified purposes described in Exhibit A to this DPA.

3.

EnlightenAI shall not Sell or Share Personal Information provided by Organization under the Agreement.

4.

EnlightenAI shall not retain, use, or disclose Personal Information provided by Organization pursuant to the Agreement for any purpose, including a Commercial Purpose, other than as necessary for the specific purpose of performing the Services for Organization pursuant to the Agreement, or as otherwise set forth in the Agreement or as permitted by the CCPA.

5.

EnlightenAI shall not retain, use, or disclose Personal Information provided by Organization pursuant to the Agreement outside of the direct business relationship between EnlightenAI and Organization, except where and to the extent permitted by the CCPA.

6.

EnlightenAI shall notify Organization if it makes a determination that it can no longer meet its obligations under the CCPA.

7.

EnlightenAI will not combine Personal Information received from, or on behalf of, Organization with Personal Information that it receives from, or on behalf of, another party, or that it collects from its own interaction with the Consumer.

3.

Consumer rights

EnlightenAI shall assist Organization in responding to Verifiable Consumer Requests to exercise the Consumer's rights under the CCPA as set forth in Section 6 of the DPA.

B.

VIRGINIA

1.

Definitions

1.

For purposes of this Section B, the terms "Consumer," "Controller," "Personal data," "Processing," and "Processor" shall have the meanings set forth in the VCDPA.

2.

All references to "Data Subject" in this DPA shall be deemed to be references to "Consumer" as defined in the VCDPA.

2.

Obligations

1.

Except with respect to EnlightenAI Account Data and EnlightenAI Usage Data (as defined in the DPA), the parties acknowledge and agree that Organization is a Controller and EnlightenAI is a Processor for the purposes of the VCDPA (to the extent it applies).

2.

The nature, purpose, and duration of Processing, as well as the types of Personal Data and categories of Consumers are described in Exhibit A to this DPA.

3.

EnlightenAI shall adhere to Organization's instructions with respect to the Processing of Organization Personal Data and shall assist Organization in meeting its obligations under the VCDPA.

C.

FERPA

1.

Definitions

For purposes of this Section C, "Education Records" shall have the meaning set forth in FERPA and its implementing regulations at 34 CFR § 99.

2.

Obligations

In the event EnlightenAI has access to Education Records, EnlightenAI agrees to:

Not use or disclose the Education Records other than for the purpose specified in this DPA and the Agreement.

Use reasonable methods to ensure the security and confidentiality of Education Records.

Not re-disclose Education Records to any other party without the prior consent of the Organization, except as permitted by FERPA.

Upon termination, cancellation, expiration, or other conclusion of the Agreement, return or destroy all Education Records collected pursuant to the Agreement.

Category of data

Elements

Used by system

Application technology meta data

IP Addresses of users, Use of cookies, etc.

Application use statistics

Meta data on user interaction with application

Assessment

Standardized test scores

Observation data

Other assessment data

Attendance

Student school (daily) attendance data

Student class attendance data

Communications

Online communications captured (emails, blog entries)

Conduct

Conduct or behavioral data

Demographics

Date of Birth

Place of Birth

Gender

Ethnicity or race

Language information (native or primary language spoken by student)

Other demographic information

Enrollment

Student school enrollment

Student grade level

Homeroom

Guidance counselor

Specific curriculum programs

Year of graduation

Other enrollment information

Parent/Guardian contact information

Address

Email

Phone

Parent/Guardian ID

Parent ID number (created to link parents to students)

Parent/Guardian name

First and/or Last

Special indicator

English language learner information

Low income status

Medical alerts/health data

Student disability information

Specialized education services (IEP or 504)

Living situations (homeless/foster care)

Other enrollment information

Student contact information

Address

Email

Phone

Student identifiers

Local (School district) ID number

State ID number

Provider/App assigned student ID number

Student app username

Student app passwords

Student name

First and/or Last

Student in app performance

Program/application performance (typing program-student types 60 wpm, reading program-student reads below grade level)

Student program membership

Academic or extra-curricular activities a student may belong to or participate in

Student survey responses

Student responses to surveys or questionnaires

Student work

Student generated content; writing, pictures, etc.

Other student work data

Transcript

Student course grades

Student course data

Student course grades/performance scores

Other transcript data

Transportation

Student bus assignment

Student pick up and/or drop off location

Student bus card ID number

Other transportation data

Other

Please list each additional data element used, stored, or collected by your application

None

No Student Data collected at this time. Provider will immediately notify LEA if this designation is no longer applicable.

Terms of service

Last updated: 03/01/2025

Overview

Overview

Welcome to EnlightenAI, operated by Teaching Lab Ventures, Inc. ("EnlightenAI," "We," "Us," or "Our"). We provide educators and school staff (together, "Educators") with online access to generative artificial intelligence tools through our website and other services (collectively our "Service"). Our Service is designed to enhance teaching and learning experiences through the use of AI technology.

1. Service overview and acceptance

1. Service overview and acceptance

Thank you for your interest in using our online services. These Terms govern your access to and use of the Service, which includes our website at www.enlightenme.ai and any other websites or online services that link to these Terms.

By accessing or using the Service, or by clicking a button or checking a box marked "I Agree" (or something similar), you signify that you have read, understood, and agree to be bound by these Terms, and to the collection and use of your information as set forth in our Privacy Policy, whether or not you are a registered user of our Service. We reserve the right to modify these Terms with 30 days' notice to you. Your continued use of the Service after such modifications indicates your acceptance of the updated Terms.

2. Eligibility and accounts

2. Eligibility and accounts

Age requirements

2.1.

Age requirements

2.1.

The Service is not intended for use by children without adult supervision. If you are under eighteen (18) years of age, you may use the Service only with the involvement and consent of a parent, legal guardian, or at the direction of your school. Educational institutions may impose additional policies regarding the use of the Service, which users must follow.

Educational institution users

2.2.

Educational institution users

2.2.

If you are using the Service on behalf of a school, district, or other educational institution, you represent and warrant that you have the authority to:

Enter into these Terms on behalf of your institution.

Consent to data practices described in these Terms and our Privacy Policy.

Authorize student use of the Service where applicable.

Provide appropriate notices to parents/guardians regarding the Service.

Account registration and security

2.3.

Account registration and security

2.3.

To access certain features of the Service, you must create an account by providing your name, email address, and other requested information. When creating and maintaining your account, you agree to:

Provide accurate, current, and complete information.

Maintain and promptly update your account information.

Keep your passwords secure and confidential.

Notify EnlightenAI immediately of any unauthorized use.

Be responsible for all activities that occur under your account.

Use your account for your personal professional use only.

Not share your credentials with others or transfer your account.

3. Using AI-generated content responsibly

3. Using AI-generated content responsibly

Professional review and refinement

3.1.

Professional review and refinement

3.1.

AI-generated content should serve as a foundation that requires your professional expertise to complete and refine. We recommend viewing AI outputs as draft materials that need your critical assessment, contextual knowledge, and professional judgment before implementation.

Critical evaluation

3.2.

Critical evaluation

3.2.

You must critically evaluate all AI-generated content for:

Factual accuracy and currency of information.

Potential biases or inappropriate perspectives.

Pedagogical soundness and grade-level appropriateness.

Alignment with your curriculum standards and learning objectives.

Understanding technological limitations

3.3.

Understanding technological limitations

3.3.

Our AI technology has inherent limitations, including:

Knowledge limitations based on training data cutoff dates.

Potential for generating plausible-sounding but incorrect information.

Limitations in understanding complex or nuanced educational contexts.

Varying quality when addressing specialized subject areas.

Data privacy considerations

3.4.

Data privacy considerations

3.4.

When using the Service:

Avoid entering or soliciting sensitive personal information about students or others.

Be mindful of confidentiality and privacy requirements applicable to your role.

Follow your institution's policies regarding sharing of student information.

Do not use the Service to process or store confidential student records unless specifically authorized.

4. Prohibited uses

4. Prohibited uses

You agree not to use the Service in any manner that:

Infringes or violates intellectual property rights, privacy rights, or other legal rights of any person or entity.

4.1.

Infringes or violates intellectual property rights, privacy rights, or other legal rights of any person or entity.

4.1.

Violates applicable laws, regulations, or institutional policies.

4.2.

Violates applicable laws, regulations, or institutional policies.

4.2.

Is harmful, fraudulent, deceptive, threatening, harassing, defamatory, obscene, or objectionable.

4.3.

Is harmful, fraudulent, deceptive, threatening, harassing, defamatory, obscene, or objectionable.

4.3.

Compromises security, including sharing account credentials or attempting to access others' accounts.

4.4.

Compromises security, including sharing account credentials or attempting to access others' accounts.

4.4.

Interferes with the proper operation of the Service, including introducing malware or placing unreasonable load on our infrastructure.

4.5.

Interferes with the proper operation of the Service, including introducing malware or placing unreasonable load on our infrastructure.

4.5.

Uses the Service for purposes outside educational contexts, such as commercial activities unrelated to your role as an Educator.

4.6.

Uses the Service for purposes outside educational contexts, such as commercial activities unrelated to your role as an Educator.

4.6.

Attempts to reverse engineer, decompile, or otherwise access the underlying code of the Service.

4.7.

Attempts to reverse engineer, decompile, or otherwise access the underlying code of the Service.

4.7.

Uses automated methods to scrape, harvest, or extract data from the Service.

4.8.

Uses automated methods to scrape, harvest, or extract data from the Service.

4.8.

Violation of these prohibitions may result in termination of your access to the Service.

5. Privacy policy

5. Privacy policy

You agree not to use the Service in any manner that:

Privacy policy

5.1.

Privacy policy

5.1.

Your use of the Service is also subject to our Privacy Policy, which describes how we collect, use, and protect your information. The Privacy Policy is incorporated into these Terms by reference.

Educational privacy laws

5.2.

Educational privacy laws

5.2.

EnlightenAI complies with applicable education privacy laws, including:

FERPA compliance

When serving educational institutions subject to the Family Educational Rights and Privacy Act ("FERPA"), EnlightenAI acts as a "school official" with a legitimate educational interest as defined by FERPA, and commits to:

Maintaining confidentiality of any student education records.

Using education records only for authorized educational purposes.

Providing access controls and disclosure restrictions.

COPPA compliance

EnlightenAI complies with the Children's Online Privacy Protection Act ("COPPA"), which requires online service providers to obtain verifiable parental consent and provide parents direct notice before collecting, using, or disclosing personal information from children under 13, except in limited circumstances. EnlightenAI provides its services in an educational context—for the exclusive use and benefit of schools or Educational Institutions and for no other commercial purpose. In this context, the Federal Trade Commission (FTC) permits educators, schools, and school districts (collectively "Educational Institutions") to act as the parent's agent and consent to the collection of students' personal information on behalf of parents. EnlightenAI relies on Educational Institutions to:

Provide consent on behalf of parents regarding the collection, use, and disclosure of students' personal information.

Act as intermediaries between EnlightenAI and parents.

Receive direct notice regarding EnlightenAI's data practices, ensuring educators are fully informed under COPPA requirements.

Data security

5.3.

Data security

5.3.

EnlightenAI implements and maintains reasonable administrative, physical, and technical safeguards designed to protect your data, including:

Encryption of sensitive information.

Regular security assessments.

Access controls and authentication measures.

Security incident response procedures.

Student data

5.4.

Student data

5.4.

If you use our Service with students, additional terms in our Data Processing Agreement may apply.

6. Intellectual property

6. Intellectual property

You agree not to use the Service in any manner that:

EnlightenAI's intellectual property

6.1.

EnlightenAI's intellectual property

6.1.

The Service, including all content, features, and functionality, is owned by EnlightenAI and protected by intellectual property laws. Subject to your compliance with these Terms, we grant you a limited, non-exclusive, non-transferable, revocable license to access and use the Service for its intended educational purposes.

User content

6.2.

User content

6.2.

If you post or share content through the Service (such as lesson plans, worksheets, or other materials), you retain ownership of such content, but grant EnlightenAI a non-exclusive, royalty-free, worldwide license to use, reproduce, modify, and display the content solely for the purpose of providing and improving the Service.

Feedback

6.3.

Feedback

6.3.

If you provide feedback, suggestions, or ideas regarding the Service, you grant EnlightenAI a non-exclusive, perpetual, irrevocable, royalty-free, worldwide license to use this feedback for any purpose without compensation to you.

7. Fees and payments

7. Fees and payments

You agree not to use the Service in any manner that:

Service plans

7.1.

Service plans

7.1.

The Service may be provided for a fee or other charge, depending on the subscription plan selected. Pricing, payment terms, and plan features are specified on our website or in separate agreements with educational institutions.

Payment terms

7.2.

Payment terms

7.2.

If you subscribe to a paid plan, you agree to pay all fees according to the plan terms. Unless otherwise specified:

Payments are due at the beginning of each billing period.

Fees are non-refundable except as required by law.

You are responsible for all applicable taxes.

Subscription plans automatically renew unless cancelled.

Changes to fees

7.3.

Changes to fees

7.3.

We reserve the right to change our pricing with reasonable advance notice. Your continued use of the Service after a price change constitutes acceptance of the new pricing.

8. Term and termination

8. Term and termination

You agree not to use the Service in any manner that:

Terms

8.1.

Terms

8.1.

These Terms remain in effect until terminated by either you or EnlightenAI.

Termination by you

8.2.

Termination by you

8.2.

You may terminate your use of the Service at any time by deleting your account or discontinuing use of the Service.

Changes to fees

8.3.

Changes to fees

8.3.

EnlightenAI may suspend or terminate your access to the Service:

With 30 days notice for any reason.

Immediately for violation of these Terms.

Immediately if required by law or to protect our users, systems, or reputation.

Effect of termination

8.4.

Effect of termination

8.4.

Upon termination:

Your right to access the Service ends.

We may delete your account and associated data.

Provisions of these Terms that should reasonably survive will continue.

9. Disclaimers and limitations of liability

9. Disclaimers and limitations of liability

Warranty disclaimer

9.1.

Warranty disclaimer

9.1.

THE SERVICE IS PROVIDED "AS IS" WITHOUT WARRANTIES OF ANY KIND. ENLIGHTENAI DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY, NON-INFRINGEMENT, AND THOSE ARISING FROM COURSE OF DEALING OR USAGE OF TRADE. WE DO NOT WARRANT THAT THE SERVICE WILL BE UNINTERRUPTED, ERROR-FREE, OR SECURE, OR THAT ANY DEFECTS WILL BE CORRECTED. YOU ACKNOWLEDGE THAT AI-GENERATED CONTENT MAY CONTAIN ERRORS, BIASES, OR INACCURACIES.

Limitation of liability

9.2.

Limitation of liability

9.2.

TO THE MAXIMUM EXTENT PERMITTED BY LAW, ENLIGHTENAI SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES, INCLUDING LOSS OF PROFITS, DATA, OR GOODWILL, SERVICE INTERRUPTION, COMPUTER DAMAGE OR SYSTEM FAILURE, OR THE COST OF SUBSTITUTE SERVICES. IN NO EVENT WILL ENLIGHTENAI'S TOTAL LIABILITY ARISING OUT OF OR RELATED TO THESE TERMS EXCEED THE GREATER OF $100 OR THE AMOUNTS PAID BY YOU TO ENLIGHTENAI FOR USE OF THE SERVICE DURING THE 12 MONTHS PRECEDING THE CLAIM.

10. Indemnification

10. Indemnification

You agree to indemnify, defend, and hold harmless EnlightenAI and its officers, directors, employees, agents, and affiliates from and against any claims, liabilities, damages, losses, costs, or expenses (including reasonable attorneys' fees) arising from:

Your use of the Service.

Your violation of these Terms.

Your violation of any rights of another.

Your User Content.

11. Dispute resolution

11. Dispute resolution

You agree not to use the Service in any manner that:

Governing law

11.1.

Governing law

11.1.

These Terms shall be governed by the laws of the State of California without regard to its conflict of law provisions.

Arbitration

11.2.

Arbitration

11.2.

Any dispute arising from these Terms shall be resolved by binding arbitration administered by the American Arbitration Association in accordance with its Commercial Arbitration Rules. The arbitration will take place in San Francisco, California, and judgment on the arbitrator's award may be entered in any court of competent jurisdiction.

YOU AND ENLIGHTENAI AGREE TO WAIVE THE RIGHT TO TRIAL BY JURY AND TO PARTICIPATE IN A CLASS ACTION. CLAIMS MUST BE BROUGHT ON AN INDIVIDUAL BASIS.

Exceptions

11.3.

Exceptions

11.3.

Nothing in this section prevents either party from seeking injunctive or other equitable relief from the courts for matters related to data security, intellectual property, or unauthorized access to the Service.

State School Systems

11.4.

State School Systems

11.4.

Nothing in this section prevents either party from seeking injunctive or other equitable relief from the courts for matters related to data security, intellectual property, or unauthorized access to the Service.

12. General provisions

12. General provisions

Entire agreement

12.1.

Entire agreement

12.1.

These Terms, together with the Privacy Policy and any additional terms incorporated by reference, constitute the entire agreement between you and EnlightenAI regarding the Service.

Severability

12.2.

Severability

12.2.

If any provision of these Terms is found to be unenforceable, the remaining provisions will remain in full effect.

No waiver

12.3.

No waiver

12.3.

No waiver of any term of these Terms shall be deemed a further or continuing waiver of such term or any other term.

Assignment

12.4.

Assignment

12.4.

You may not assign or transfer these Terms without EnlightenAI's prior written consent. EnlightenAI may assign these Terms in connection with a merger, acquisition, or sale of assets.

Contact information

12.5.

Contact information

12.5.

Appendix 1

Appendix 1

These Terms, together with the Privacy Policy and any additional terms incorporated by reference, constitute the entire agreement between you and EnlightenAI regarding the Service.

1.

Student records generated by EnlightenAI from an educational institution-Organization continue to be the property of and under the control of the Organization. The Organization retains full ownership rights to the personal information (subject to applicable law) and education records it provides to EnlightenAI.

2.

Authorized Users may retain possession and control of their own generated content by making a request with the applicable Organization.

3.

EnlightenAI will not use any information in a student record for any purpose other than those required or specifically permitted by the Organization Terms and Conditions and Privacy Policy.

4.

Parents, legal guardians, or eligible students may review personally identifiable information in the student's records and correct erroneous information by contacting their educational institution. Additionally, Authorized Users may access, correct, update, or delete personal information in their profile or student profiles by signing into the Platform, and making the appropriate changes in account settings.

5.

EnlightenAI is committed to maintaining the security and confidentiality of Organization Data comprising of student records. Towards this end, EnlightenAI takes the following actions:

5.1.

Limiting employee access to student data to only those employees with a need for such access to fulfill their job responsibilities; and

5.2.

Protecting personal information with technical, contractual, administrative, and physical security safeguards designed to protect against unauthorized access, release, or use (as specified in the EnlightenAI Data Processing Agreement).

6.

In the event of an unauthorized disclosure of a student's records, EnlightenAI will promptly notify the Organization as specified in its Data Processing Agreement, and make all other notifications and disclosures to both Organization and applicable data subjects (including students) required under applicable law.

7.

EnlightenAI will delete or de-identify personal information when it is no longer needed to provide access to the Platform, within thirty (30) days upon expiration or termination of this Agreement, with any deletion or de-identification to be completed according to the terms contained herein, or otherwise at the direction or request of the educational institution.

8.

EnlightenAI agrees to work with the educational institution to ensure compliance with FERPA and the Parties will ensure compliance by ensuring the Organization provides parents, legal guardians or eligible students with the ability to inspect and review student records and to correct any inaccuracies therein as described in statement (4) above.

9.

EnlightenAI explicitly prohibits using personally identifiable information in student records to engage in targeted advertising, and does not engage in such conduct.
