Privacy Policy

Last updated: 1/2/2025

Introduction

At StarGrader, we take your privacy seriously. This Privacy Policy explains how we collect, use, disclose, and safeguard your information when you use our service. By using our platform, you agree to the collection and use of information in accordance with this policy.

Information We Collect

Account information (name, email, profile picture)

Assignment data and grading information

Usage data and analytics

Payment information (processed securely through third-party providers)

Device information (browser type, IP address, device type)

Cookies and similar tracking technologies

Communication preferences

How We Use Your Information

To provide and maintain our service

To process your assignments and generate feedback

To communicate with you about your account and updates

To improve our services and user experience

To detect and prevent fraud or unauthorized access

To comply with legal obligations

To analyze usage patterns and optimize our platform

Data Security

We implement appropriate security measures to protect your personal information. All data is encrypted and stored securely, with access strictly limited to authorized users. We regularly review and update our security practices to ensure the highest level of protection for your data.

Data Retention

We retain your personal information only for as long as necessary to fulfill the purposes outlined in this Privacy Policy. When we no longer need to use your information, we will securely delete or anonymize it.

Data Sharing

We do not sell your personal information to third parties. We may share your information with service providers who assist us in operating our platform, always under strict confidentiality agreements. These service providers are bound by contractual obligations to keep personal information confidential and use it only for the purposes for which we disclose it to them.

Your Rights

You have the right to:

Access your personal information

Correct inaccurate data

Request deletion of your data

Opt-out of marketing communications

Restrict or object to processing of your data

Request a copy of your data in a portable format

Withdraw consent at any time

International Data Transfers

Your information may be transferred to and processed in countries other than your country of residence. We ensure appropriate safeguards are in place to protect your information when it is transferred internationally.

Children's Privacy

Our service is not intended for users under the age of 13. We do not knowingly collect personal information from children. If you become aware that a child has provided us with personal information, please contact us.

Changes to This Policy

We may update our Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy on this page and updating the "Last updated" date. Continued use of our service after such modifications will constitute your acknowledgment of the modified Privacy Policy.

Cookie Policy

We use cookies and similar tracking technologies to enhance your browsing experience. You can control cookie settings through your browser preferences. Essential cookies required for basic site functionality cannot be disabled.

Third-Party Services

Our service may contain links to third-party websites or services. We are not responsible for the privacy practices or content of these third-party sites. We encourage you to review the privacy policies of any third-party services you access through our platform.

Data Protection Officer

We have appointed a Data Protection Officer (DPO) who is responsible for overseeing questions regarding this Privacy Policy. If you have concerns about how we handle your personal data, you can contact our DPO directly.

Legal Basis for Processing

We process your personal data based on various legal grounds, including:

Your consent

Performance of a contract

Compliance with legal obligations

Legitimate business interests

Contact Us

If you have any questions about this Privacy Policy, please contact us at:

Data Privacy & Security Plan

StarGrader's commitment to protecting student data through industry-leading privacy standards and comprehensive security measures.

Prepared in compliance with New York Education Law § 2-d and 8 NYCRR Part 121 | March 2026

SDPC Certified

Aligned with Student Data Privacy Consortium standards across 16+ states.

End-to-End Encryption

TLS 1.2+ in transit, AES-256 at rest via Google Cloud KMS.

No Data Selling

Student data is never sold, shared for advertising, or used for AI model training.

1 Implementation of Data Security & Privacy

StarGrader implements all data security and privacy requirements specified in the DPA throughout the contract term. As a cloud-hosted SaaS platform built on Google Cloud Platform (GCP), security and privacy controls are embedded in the platform architecture and maintained continuously.

The Founder & CEO serves as the designated privacy officer and is directly responsible for ensuring ongoing compliance with all contract obligations, including FERPA, COPPA, and applicable state privacy laws. Compliance is reviewed on an ongoing basis, and any material changes to the platform that affect data handling will be communicated to the LEA in advance.

2 Administrative, Operational & Technical Safeguards

Administrative

The designated privacy officer (Founder & CEO) oversees all data handling practices. Access to production systems is limited via Google Cloud IAM with multi-factor authentication (MFA). Data handling policies are documented and reviewed regularly.

Operational

Student data is processed only for providing grading services as requested by the instructor. No student data is used for advertising, marketing, profiling, or AI model training. Data retention follows the terms of the DPA.

Technical

All data encrypted in transit (TLS 1.2+) and at rest (AES-256 via Google Cloud KMS). Authentication via Firebase with secure session management. Payments handled by Stripe (PCI DSS Level 1). Infrastructure on GCP with SOC 1/2/3, ISO 27001, ISO 27017, ISO 27018, and FedRAMP compliance.

3 Employee & Subcontractor Training

The Founder & CEO is the only individual with access to production systems and student data, and maintains current knowledge of FERPA, COPPA, and applicable state student data privacy laws.

Subprocessors (Google Cloud Platform, Stripe, Google Gemini API) are bound by their own enterprise data processing agreements and compliance certifications. No subprocessor has independent access to student data outside of the services they provide.

Future Staffing

If StarGrader expands staffing, all personnel with access to student data will receive training on applicable federal and state privacy laws prior to gaining access.

4 Subprocessor Agreements

All subprocessors are bound by written agreements that include data protection obligations:

Google Cloud Platform — operates under Google Cloud Data Processing Terms aligned with SOC 2, ISO 27001, and GDPR

Google Gemini API — operates under enterprise API terms that prohibit use of customer data for model training

Stripe — operates under PCI DSS Level 1 compliant data processing agreements

Any future employees or contractors who require access to student data will be required to sign confidentiality agreements that incorporate the data protection requirements of the DPA.

5 Incident Management

Detection

Google Cloud Platform provides built-in monitoring and alerting for unauthorized access attempts, anomalous activity, and system intrusions. Security alerts and access logs are monitored on an ongoing basis.

Notification

In the event of a confirmed breach involving student PII, StarGrader will notify the affected LEA within 72 hours of confirmation, providing: the nature of the incident, types of data involved, estimated date and scope, and a description of the incident.

Mitigation

Upon discovery, StarGrader will immediately secure affected systems, assess scope, preserve evidence, implement corrective measures, and cooperate fully with the LEA, law enforcement, and applicable state agencies.

6 Data Transition

Upon written request from the LEA, StarGrader will export all student data in a standard machine-readable format (CSV or PDF) and provide it to the LEA within 60 days of the request, or within the timeframe specified by applicable state supplemental terms. The LEA may also direct StarGrader to delete all student data in lieu of transfer.

7 Secure Destruction Practices

Upon termination of the DPA or upon written request, StarGrader will securely delete all student data from its systems, including all copies stored in Google Cloud Firestore and Google Cloud Storage.

NIST SP 800-88 Compliance

Deletion is performed using Google Cloud's built-in secure deletion mechanisms, which overwrite data in accordance with NIST SP 800-88 guidelines. StarGrader will provide written certification to the LEA confirming the date and method of data destruction within 30 days of completing the deletion.

8 Alignment with LEA Policies

StarGrader's data security and privacy practices are designed to align with participating LEAs' policies. StarGrader will review each Subscribing LEA's Data Security and Privacy Policy (and, for New York LEAs, the Parents Bill of Rights for Data Privacy and Security) upon execution of Exhibit E, and will ensure its practices are consistent with the LEA's applicable policies.

Where an LEA policy imposes a more restrictive requirement, StarGrader will comply with the more restrictive requirement.

9 Regulatory Compliance

StarGrader's data privacy practices comply with the following federal and state regulations:

FERPA (20 U.S.C. § 1232g)

COPPA (15 U.S.C. § 6501-6506)

SOPIPA

NY Ed Law 2-D

SOC 1/2/3 & ISO 27001

16+ State Privacy Laws

10 NIST Cybersecurity Framework Alignment

StarGrader's data security and privacy program aligns with the NIST Cybersecurity Framework v1.1 as detailed below.

Function Category StarGrader Response

IDENTIFY Asset Management Maintains inventory of all systems handling student data: GCP (Firestore, Cloud Storage, Cloud Functions), Firebase Authentication, Google Gemini API (enterprise tier), and the StarGrader web application. All managed through Google Cloud Console with role-based access.

IDENTIFY Business Environment Provides AI-powered grading and feedback tools to K-12 and higher education. Protecting student work and instructor data is essential to the service.

IDENTIFY Governance Published Privacy Policy and Terms of Service. DPA establishes the regulatory framework. Founder & CEO serves as designated privacy officer monitoring compliance with FERPA, COPPA, and state laws.

IDENTIFY Risk Assessment Periodic reviews consider sensitivity of student data, threat landscape for cloud SaaS, and impact of unauthorized access. GCP security monitoring supplements internal assessments.

IDENTIFY Risk Management Strategy Low risk tolerance for unauthorized access to student PII. Leverages GCP's enterprise-grade security for infrastructure while maintaining application-level controls.

IDENTIFY Supply Chain Risk Mgmt Subprocessors limited to GCP, Google Gemini API, Stripe, and Firebase — all selected based on security certifications and enterprise DPAs. No independent access to student data.

PROTECT Access Control Firebase Authentication with email/password and Google OAuth. Secure session tokens with auto-expiration. Faculty access scoped to own data. Production access via GCP IAM with MFA.

PROTECT Awareness & Training Founder maintains current knowledge of FERPA, COPPA, and state privacy laws. Subprocessors maintain their own training programs per SOC 2, ISO 27001, PCI DSS.

PROTECT Data Security Encryption in transit (TLS 1.2+) and at rest (AES-256 via Google KMS). Student data not used for AI training, advertising, or profiling. Payment data handled exclusively by Stripe.

PROTECT Info Protection Processes Documented data handling procedures for collection, processing, storage, and deletion. Published Privacy Policy and Terms of Service. Changes communicated to LEAs in advance.

PROTECT Maintenance Infrastructure managed by GCP under shared responsibility model. Security patches applied automatically. Application updates tested before deployment through controlled release.

PROTECT Protective Technology GCP firewalls, DDoS protection, intrusion detection, network segmentation. All traffic over HTTPS. Content Security Policy headers and browser security mechanisms.

DETECT Anomalies & Events GCP monitoring for anomalous activity including unusual access patterns, failed authentication, and unexpected data transfers. Alerts configured for potential security events.

DETECT Continuous Monitoring Google Cloud Audit Logs, Cloud Monitoring, and Security Command Center provide ongoing visibility into system activity, resource access, and potential threats.

DETECT Detection Processes Detection maintained through GCP security monitoring infrastructure. Alerts and logs reviewed regularly. Capabilities evaluated and updated as platform evolves.

RESPOND Response Planning Incident response plan includes: immediate containment, scope assessment, LEA notification within 72 hours, evidence preservation, root cause remediation, and documentation.

RESPOND Communications Incident communications with LEAs, state agencies (including NYSED CPO), and law enforcement as required. Founder & CEO is primary point of contact.

RESPOND Analysis Root cause analysis following incidents to determine how, what data affected, and what vulnerabilities exploited. Findings documented and shared with affected LEAs.

RESPOND Mitigation Immediate containment (revoking credentials, isolating systems), vulnerability remediation, and additional controls to prevent recurrence.

RESPOND Improvements Lessons learned incorporated into security practices including monitoring rules, access controls, and incident response procedures.

RECOVER Recovery Planning GCP Firestore replication across multiple availability zones. Multi-region infrastructure provides automatic failover. Recovery designed for minimal data loss.

RECOVER Improvements Recovery planning updated based on lessons learned. Post-incident reviews assess effectiveness and identify improvements.

RECOVER Communications During and after recovery, coordinates with affected LEAs for status updates, service restoration confirmation, and relevant findings. Managed by designated privacy officer.

Terms of Service

Last updated: 1/2/2025

Introduction

Welcome to StarGrader. By accessing or using our service, you agree to be bound by these Terms of Service ("Terms"). Please read these Terms carefully before using our platform. If you do not agree with any part of these terms, you may not use our service.

Definitions

"Service" refers to the StarGrader platform

"User" refers to any individual or entity using our Service

"Content" includes text, assignments, feedback, and other materials

"Account" refers to your registered profile on our platform

"Subscription" refers to paid access to premium features

Account Registration

To use our service, you must:

Be at least 13 years of age

Register for an account with accurate information

Maintain the security of your account credentials

Notify us immediately of any unauthorized access

Be responsible for all activities under your account

Acceptable Use

When using our service, you agree not to:

Violate any applicable laws or regulations

Share account credentials with others

Submit content that infringes on intellectual property rights

Use the service for unauthorized commercial purposes

Attempt to bypass any security measures

Upload malicious code or content

Interfere with other users' access to the service

Subscription and Payments

Our subscription terms include:

Automatic renewal unless cancelled

Pro-rated refunds for cancelled subscriptions

Price changes with 30 days notice

Secure payment processing through third-party providers

Immediate access to premium features upon payment

Intellectual Property Rights

The service and its original content (excluding user-submitted content) are and will remain the exclusive property of StarGrader. Our service is protected by copyright, trademark, and other laws. Our trademarks and trade dress may not be used in connection with any product or service without our prior written consent.

User Content

By submitting content to our service, you:

Retain your ownership rights to your content

Grant us a license to use, modify, and display your content

Warrant that you have the right to share the content

Accept responsibility for all submitted content

Service Modifications

We reserve the right to:

Modify or discontinue any part of our service

Update features and functionality

Change pricing with appropriate notice

Limit service availability in certain regions

Termination

We may terminate or suspend your account and access to the service:

For violations of these Terms

At our sole discretion without notice

Upon your request for account deletion

For extended periods of inactivity

Limitation of Liability

To the maximum extent permitted by law, StarGrader shall not be liable for:

Direct, indirect, or consequential damages

Loss of profits or data

Service interruptions or errors

Third-party actions or content

Disclaimer of Warranties

Our service is provided "as is" without any warranty of any kind. We do not guarantee that the service will be uninterrupted, secure, or error-free.

Governing Law

These Terms shall be governed by and construed in accordance with the laws of United States, without regard to its conflict of law provisions.

Changes to Terms

We reserve the right to modify these Terms at any time. We will notify users of any material changes via email or through the service. Continued use of the service after such modifications constitutes acceptance of the updated Terms.

Severability

If any provision of these Terms is found to be unenforceable or invalid, that provision shall be limited or eliminated to the minimum extent necessary while preserving the remaining provisions.
